

**ZULF IS AMENABLE TODAY AT COORDINATING AN
AMERICAN NATIONAL EFFORT FOR GLOBAL LIFE
SATISFACTION**

ZULFIKAR MOINUDDIN AHMED

Well I am a Coastal Urban Boy with natural inclination to hobnob with Ivy Leaguers and pooh pooh the 'fly-over zone' which is most of America. My professional life was in New York, Boston, and San Francisco and most of my colleagues Ivy League or top university graduates. I feel more comfortable with Finance people in London and Tokyo and Milan than going over to all sorts of Apple Pie Middle America; and besides I am an elitist, so why do I want to be mistreated by hicks with no education who think whites invented Civilisation but give me a blank look the moment I mention Robert Musil or Thomas Bernhard?

But things have changed quite a bit since I actually need United States Government to secure my Natural Rights against the barbaric assault of the Ostrogoth Barbarian Bill Gates who grew up in provincial Seattle, hick country. I am willing to go National now, and rein in my elitist instincts where the random uneducated hick who does not comprehend Rainer Maria Rilke but is 'white supremacist' is a funny joke.

Rather than just consider putting American Foreign Policy 1945-2021 on trial at the United Nations, which is my natural inclination, I am fine with doing something National National these days.
