

## **ZULF ACKNOWLEDGES THE ENGLAND ERRANT WHO INVENTED BILL GATES THE 'BOOGIE BOY'**

ZULFIKAR MOINUDDIN AHMED

That is absolutely fabulous. 'Boogie Boy' is just perfect. I can even now imagine an entire Apparel Line that will do quite well with Bill Gates the 'Boogie Boy' with all sorts of silk shirts with small delicate patterns of various black magic and other sorts of evil things that Bill Gates uses. You can imagine black silk shirts with all sorts of tiny patterns of black magic and evil signs that go really well with white cashmere V-neck and then baggy pants with all sorts of racial hocus like "ethnicities 'r us" and "superior duperior" and more postmodern sorts of things like mixing up socialist newspaper articles on racism with all sorts of strange pictures of Bill Gates with swirling patterns in his eyes in small print all over the pants.

I love Bill Gates "Boogie Boy" with a postmodern pastiche which is irreverent to the politically correct and racial ideologies and mixes it with old newspaper style etc.

Great job.

I'll try a swirl right now.

### 1. THE BIRTH OF BOOGEY BOY FROM A LOGICAL GLITCH

Once upon a time an English boy became totally Evil. He convinced himself that Evil is not Evil if committed against non-white people. He became the most Evil Boogey Boy in all of the Earth. His name was *Bill Gates*.
