

ZULF CLAIMS AROUND 95% OF HUMAN RACE WILL AGREE BILL GATES OUGHT TO DIE

ZULFIKAR MOINUDDIN AHMED

I have condemned Bill Gates to death. I am not joking, but I have seriously condemned Bill Gates to death. And I made the perfect just decision here.

You see, for the past decade, I had forgone all income of any reasonable size and I had devoted myself first to the idea that I ought to seek abolition of Nation States for a Great Republic of Humanity in order to secure Natural Rights of all people simultaneously. Then I devoted myself to Four-Sphere Theory without a single cent or support from Harvard or any other university. Dan Stroock told me to find someone else when I asked a decade ago. I took that risk on my own volition, and I lived with my aunt instead of have a good job, respect, a pad of my own, etc. I dealt with her abuse for 12 years because I had no earning. I worked nonstop for years and I succeeded in Four-Sphere Theory; It ought to get 30 Nobel Prizes and I did not get a single email congratulating me. But I know it is correct, and has overthrown Einstein, Schroedinger, Lemaitre. Then I worked on Finance problems, and discovered deep properties of medium frequency market movements and got great results on historical data. Henry Jarecki was not into it. Then D. E. Shaw liked it and began trading it. I gave Bill Gates a sale to my strategy. This malevolent little pathetic cunt, Bill Gates put money in *my strategy* and then told me it's trivia and I don't deserve my cut of \$120 million and then he cut into my eyes while my mother was sick and people are waiting for me to get something working, and starved me of funds, *while making money on \$2 billion on my strategy* continuously harming me with racial slurs. Then he claims that my company is his and gives me the most diarrhetic amount of right wing racist drivel.

This fuck needs to be beaten repeatedly to pulp and wiped off the face of the earth, and killed with the most horrific cruel and unusual painful punishments again and again and again for 50,000 years.

Around 95% of the human race will consider this right, good and just.

No one on planet Earth who ever existed deserves to be beaten and killed after sodomy by 50 men from the hardcore prison as much as this malicious little cunt Bill Gates. Around 95% of the entire planet will agree with me totally. This little cunt needs to be wiped out of Earth.
