

# **ZULF STARTS PATIENTLY AT THE BEGINNING ABOUT MY VIEWS AND WHAT I WANT FROM WHITE PEOPLE IN AMERICAN GOVERNMENT**

ZULFIKAR MOINUDDIN AHMED

Look, White People in American Government. I am American. I am Asian-American. Now I don't really give a damn what exactly you do. I have things to do of my own. I don't know you personally and frankly don't care all that much about it. Why? I'm going to be living in San Francisco. If I see you at a party or something I'll do some socialising but I am not a government man, so I don't really care about what you do exactly except out of politeness maybe because I am with a beautiful lady and don't want her to feel that I am rude ok? Maybe to keep some lovely lady happy I will ask polite questions to you about what great things you do in your work and forget about it moments later when I need to excuse myself and pour myself some more wine and get distracted by some professor of Romance Literature nearby who is much more interesting to me.

Now to me your collective job, all White People in American Government together, is simple, it is to secure natural rights of 330 million Americans including mine. What the fuck do I care about how you singlehandedly mauled the Egyptian people right next to the Pyramids in a hot summer day and wiped out their town in napalm or whatever. I don't want you to be distracted from securing natural rights of 330 million Americans at all, especially mine. Ok?

If you do not deliver natural rights security to me, I will replace every single one of you without pension and replace you with 1.4 million Americans who will do the natural rights security of 330 million Americans including myself.

I am American. I am not interested in all sorts of adventurers and Indiana Jones in Government. I want solid natural rights security for 330 million Americans, and especially myself.

I do not understand why this is so difficult for you to grasp. Deliver or forget your job and your pension.
