

# MANIFESTO OF UNITY OF SINGLE HUMAN RACE

ZULFIKAR MOINUDDIN AHMED

This document is a draft for my Manifesto of Unity of a Single Human Race. If I were to die I want to dedicate my life and works except when otherwise stated explicitly for specific works (such as my work on Four-Sphere Theory was dedicated to the memory of victims of Hiroshima and Nagasaki) to my beloved people the Human Race.

I want to assure all people of the world that you belong to a Single Race, which is the Human Race. Let me first clarify this by what is known from Science. We know, thanks to the dedicated efforts of the Italian geneticist Luigi Luca Cavalli-Sforza and others that around 75,000 years ago all human beings on Earth were a member of a meta tribe of East Africa. This implies that we are a Single Human Race, all direct descendents of the members of a single meta-tribe.

Second, it is known from the work of Sewall Wright and further tests that the Fixation Index ([2]) for all continental groups was originally bounded by  $F_{ST} = 0.15$  and more recent estimations bound it to  $F_{ST} = 0.07$ . The index ranges from 0 to 1 where 0 means there is no difference at all and the populations are interbreeding freely and 1 means that the population is genetically completely separate. The measured bounds on  $F_{ST}$  implies that genetic continental or ethnic group differences are rather small. They are small enough that multiple races among Homo Sapiens cannot be justified on genetic grounds.

But there is much more to the story than this, for I am the great pioneering Genius who have shown that the variations in Human Moral Values across the globe due to ethnicity is bounded to 6.5% to 9.5% of the total variation. This result has profound implications that there are no significant human moral values differences between any two broad ethnic groups in the world. I defined broad ethnic groups into Whites, Arabs, East Asians, Blacks, Indians, and Others. But the strong regularity I had showed leaves no doubt that *even in the moral realms* there is remarkable regularity in Homo Sapiens and therefore that we are a Single Race.

These Scientific results then imply that we are a single people in all important ways, and therefore we ought to take steps in the future to produce a coherent political organisation that is able to end strife within is permanently. In the future, I would like to see all Nation States abolished and a Great Republic of Humanity formed capable of securing the Natural Rights of all human beings simultaneously. I began this process in 2008, and had faced failure in this project but have since tabled the project. But this is my wish for the future of my beloved people the Human Race. I am quite annoyed that my people are divided and in antagonistic strife. They deserve much better than this.

Around 78% of the human race today support human rights protections. This is implicitly a global democratic consensus and justifies a Great Republic of Humanity for security of Natural Rights.

I am hoping that United States of America is able to secure my Natural Rights against the savage barbaric brutal murderous efforts by Bill Gates to destroy me, but if they should fail, I would like UN Security Council to delegitimise the United States of America and begin a grand process towards a Great Republic of Humanity. This can be done where securing of Natural Rights is the responsibility of a single international organisation while the local governance functions are retained by nations in other respects.
