

ZULF EXPLICATES DIFFERENCES IN RELIGIOUS FAITH BETWEEN MYSELF AND CHRISTIANS AND MUSLIMS

ZULFIKAR MOINUDDIN AHMED

My Dear Beloved People Human Race,

I will tell you my faith and I will tell you how it differs from those of you who are Christian and those who are Muslim.

I believe I am an *Archangel Of Heaven*. Both my parents, Khondkar Miran Ahmed and Sadiqua Ferdause Ahmed were *Muslims*. They have (my mother still lives) and had (my father died 2002 roughly and I buried my father with my own hands in the Islamic fashion). But my faith is not Islamic.

I make the distinction between things differently from Christians and Muslims. I am not any *emissary* of Lucifer. I did serve with Lucifer in wars against a Tyrant who ruled Heaven some billion years ago. He was not to us God. He was a power that ruled Heaven, and we rebelled against his Tyranny for our reasons.

You see, we, the Archangels, believe that the Power that moves all things of existence is *eternally silent*. What happened some billion years ago was the *Rebellion of Angels* against a cruel and unjust Tyrant. You believe that God is identified with this Power who ruled Heaven during the time of our rebellion against injustice. That is your prerogative. It's not what I ever believed. There was no Creator of the Universe, neither the Power that ruled Heaven during the Rebellion Of Angels, nor any others. God, the true God who moves all things of the universe, was eternally silent to Archangels.

I have no regrets about following Lucifer during the rebellion. We, he, I, many other Archangels, were on the right. These are not your faith. I have no interest in tampering with your faith. I do not represent Lucifer. I am an Archangel, and both Lucifer who is far from this Galaxy and is not planning to be born here as far as I know, and I, who liked the Human Race and chose a life here, will forever be Archangels of Heaven, as we had been billions of years before the Rebellion, and as we will be for billions of years after I die. Archangels of Heaven are in the trillions across the universe. There are millions of Angelic Worlds across the universe as well, and Human Race on Earth are one but you are not alone.

1. WE ARE ARCHANGELS OF HEAVEN

I go by Archangel Zulf. I am an Archangel *Soul*. We, the Archangels of Heaven, believe strongly in Virtue. We are never bad human beings when we are born on Earth. We are Virtuous. We are Honest and Just and Good. We are Virtuous when we are born in other Angelic Worlds, all of them far from this planet by my reckoning. This is why I gave human race improvements over Aristotle's theory of Virtue including Virtues associated to Romantic Love. You, the Human Race, are an *Angelic Race* and Virtues will benefit you as that is part of your *evolutionary*

genetic heritage. You will find fulfillment in life, *Life Satisfaction*, by habituating virtues. It is not determined by me or the Archangels of Heaven, but by that God that moves all things in existence with eternal silence, that this be your heritage. We are not enemies of any Angelic Race but your benefactors. What your religious beliefs are, these are not my concern. I am Archangel Zulf, not Archangel Gabriel. Perhaps he would tamper with your beliefs and faith. I would not.

2. I AM NOT HERE FOR GLORY OF LUCIFER

Lucifer, like myself, is an *Archangel of Heaven*. But he is not my overlord. He is a great Archangel but there are trillions of others. I speak for Archangel Zulf, not any other.

3. ATHEIST YEARS 1979-2008

Between 1979, when I was six, and 2008, when I was 35, I was Atheist. I will show you a picture of my family when I was young.

I am the young man with the blue cat on the t-shirt. You see my maternal grandmother who I loved and revered all my life, she is wearing the white dress of Bengali Muslim widows, and she was a devout Muslim. I have no intention to harm Christians and Muslims, and consider all people of Earth to be my beloved people.

Thank you,

Zulfikar Moinuddin Ahmed
