

I SUSPECT AT THE MOMENT THAT FBI WISHES TO HARM MY LIFE

ZULFIKAR MOINUDDIN AHMED

Individual FBI agents are nice enough fellows but I have deep distrust right now about what the intentions are of United States Government and FBI towards me. I have reported to the world that Queen Elizabeth's Royal Menders had reported that by November 4 2020, more than a year ago Bill Gates did enough harm to me to have killed any Bengali Man, but just today they came with threats that they will prosecute me and put me away. This is no different from this government as the Indian Removal Act under Andrew Jackson that continued the genocide of Native Americans in 1830, than the Japanese Internment during the Second World War, than the horrible treatment of Muslims since Israel's Mossad did 9/11, and I am not feeling very comfortable with their agenda. I had been writing to ask United States Government for more than a year that Bill Gates is an extremely brutal savage racial supremacist who has done irreparable harm to me, but they don't even interrogate him for a year but feel free to barge in intruding in my life when I make some provocative poster about pulling the trigger etc. I will have to be wise and remember what they did to the Native Americans. Who do they really serve? Do they really serve the ordinary American person like myself or do they, by gymnastics that allowed Abu Ghraib and the Mai Lai massacre, quite okay with sabotaging my life with psych wards and drugs while Bill Gates destroys all vestiges of Natural Rights of non-white Americans with impunity and destruction, rampaging with US War Meta and US Industrial meta damaging people's exoskeleton during their Harvard tenure considers. I will have to say I am extremely suspicious and I will make my suspicion known to the world.

1. LET ME EXPLAIN THE POSTER

I don't like guns at all. I thought it would be funny to write all sorts of 'Zulf, just pull the trigger. Zulf, it's so easy, just pull the trigger, it'll be okay' and so on with a red target on Bill Gates' forehead. Suddenly we have FBI knocking on my door saying this is a *threat*. Never mind that I don't own any firearms and have no record of actually harming anyone at all. Suddenly, I am a goddam *criminal* while Bill Gates cuts into my meta, obstructs real income of \$620 million and has an agenda to destroy lives and suppress the American Dream for all non-white Americans. There are apparently Texas judges that will sign a warrant to put me behind bars because it's a '*threat*'. Never mind that Bill Gates put tens of billions for wars in Asia. Never mind all that, but even though Bill Gates is an entirely different state with whatever security \$131 billion can buy, I am now a *threat* to Bill Gates from disability income in Allen Texas. I am going to find out what is going on here. That is just outrageous.

Date: January 10, 2022.

2. HAH THAT'S FUNNY WHAT IF I SAY TRIGGER IS FOR CHARACTER ASSASSINATION?

These Texas judges are dumber than doorknobs. I never mentioned any guns. What if now I say well that's for a *Campaign* to Assassinate his Character and leave the assassination of his body to United States Government? What are you going to do to secure your judgment that it's a threat? What sort of threat?

3. FINE I'LL SAVE YOU THE TROUBLE TEXAS WHITE JUDGES

Why don't you pull out the order to process me through the mental health loop? My life is seriously threatened and you will find yourself in an international scandal because UN Security Council is involved and you will be instantly considered cronies of racial murderer Bill Gates since China was suspicious and did consider and found that Bill Gates and some wealthy white people have a plot to snuff out Natural Rights of nonwhites worldwide for a white supremacist world order. And when that happens, and given that my Four-Sphere Theory succeeded already and I am doing well in Stanford Mathematics Ph.D. Quals problems, that will draw every International Human Rights Organisation in the world right to your doorsteps in a matter of months.

Then you will find that I was not even in physical education classes in high school in John Adams High School in New York 1987-1991 because I was shot at 11 and had a pellet stuck in my liver and my health was delicate and disliked guns. No one will respect your judgment against a struggling immortal genius who is seeking Stanford tenure, a Princeton graduate who was struggling to produce great works in Science from Allen when you treated me like a criminal and so on.

It's up to you. I am a master at geopolitics. Why did you get involved in a conflict with Bill Gates and myself at all? I mean you will be smeared as closet fascist white supremacists very quickly because Texas is not altogether too bright in geopolitics and never was.

Bill Gates is physically in Northwest boondocks near Canada. What made you think that suddenly I will be a great danger for saying 'Zulf, just pull the trigger?' what sort of judgment is that? Seems frivolous and ridiculous to me.

4. FINE I WILL TELL YOU THE FINE POINT IN THE PARTICULAR POSTER YOU SAW

If I was whispering not to myself but to *other people*, "Joe, Joe, just pull the trigger, pull the trigger" with a bull's eye on Bill Gates head. Then I would be held liable for an assassination of Bill Gates *if it were to happen* because I provoked it by my great influence over all sorts of people. But it's not a serious thing if I make the suggestion to *myself*. Why? Because I'm not that guy who has been hoarding pistols and machine guns for years. I'm pretty unhappy with guns, northeast liberal type. And Bill Gates is not across my street. He's out there in podunkville frontier far past all Civilisation. I mean who the fuck actually thinks Washington State is even in the boundaries of Civilisation? Not me. I would never do all the things necessary for doing that. That's for Matt Damon in the movies, taking planes, trains and doing all sorts of sniping of people with Russian or German names while romancing the ladies along the way. Whatever made you think Zulf would do any such thing?

Oh, hold on FBI and White Texas Judges. Let's do this quite openly. You see this is Matt Damon in *Bourne Supremacy*.

Are you sure you're sane? You actually think that Zulf is like Jason Bourne using all sorts of heavy duty sniper rifles from rooftops chasing down Billy Boy the Evil White Supremacist?

Why don't you take a real look at Zulf.

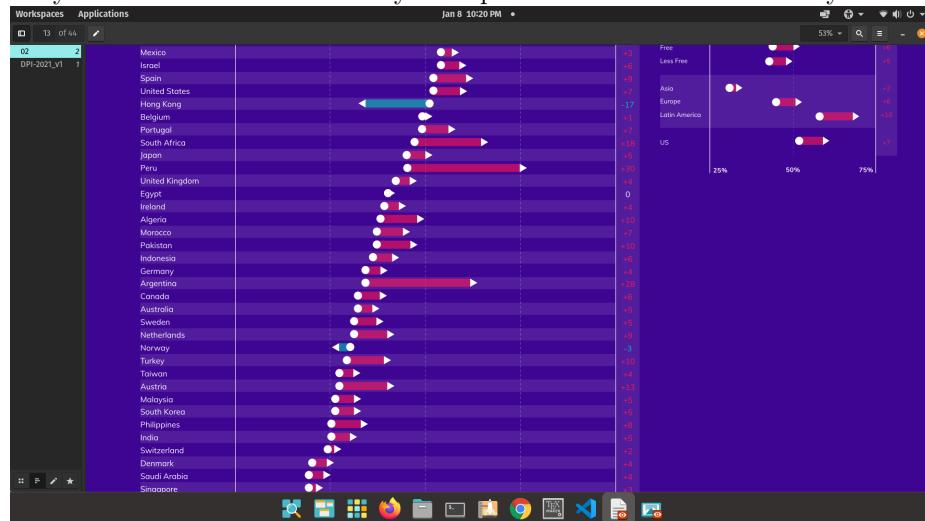

You think this man, myself, is like Jason Bourne. And you take \$1.1 trillion of American taxpayer money to come to this conclusion?

5. LET ME TELL YOU SOMETHING FBI

In Democracy Perception Index China is doing better than the United States by a wide margin. You really think than barging into the abode of an American man with 34 years of Permanent Residency for an absurd political poster that was provocative threatening to put me behind bars will give the world a great sense of our governments securing Life, Liberty and Pursuit of Happiness versus China? You think that this is automatic, this "We're part of the free world" if you do this totally randomly, disturb Zulfikar Moinuddin Ahmed, who has no record of violent crimes, and threaten jail time in front of my aunt and brother while you do nothing

to Bill Gates at all? You think that American Liberty and freedom is going to look good in Asian universities after this?

Do you even know the Democracy Perception Index? Let me educate you.

You see the perception that United States Government acts in the interests of a minority is much higher here than in Saudi Arabia, China, Pakistan and India. Do you think that this is an accident, FBI?

You can find the 2021 Democracy Perception Index and take a look yourself. Do you think that your behaviour of accosting people and disrupting their lives with power of law randomly has to do with this, or you think that people randomly have consensus that US Government acts for the interests of minority – like Bill Gates?

6. LET ME TELL YOU MORE ABOUT WHO I AM INTERNALLY FBI SO YOU ARE NOT BEING FOOLISH

First of all in *geopolitics* I am better than your best guys without any doubt. I am literally ten times more talented than *Dean Acheson* and *George F. Kennan*. You can believe this or not. It's true. So you will end up getting embroiled in *international political foodfight* if you annoy me.

Second, I am not Rasputin, but I know that the way to kill anyone legitimately is getting the *government* to kill them. That's trivial, and I know this extremely well. So it is foolish of you to *pretend* that I would ever dirty my hands with bloodshed myself. I am not irrational, and know that legitimate power to kill people is government's by design, and your foolish use of a frivolous poster to put me away in psych wards is not bright because it will irritate me.

7. FINE, I WILL DO MY AMERICAN DUTY

Alright all people of FBI, let me tell you who you are, who you serve, and what your role is vis-a-vis 320 million Americans.

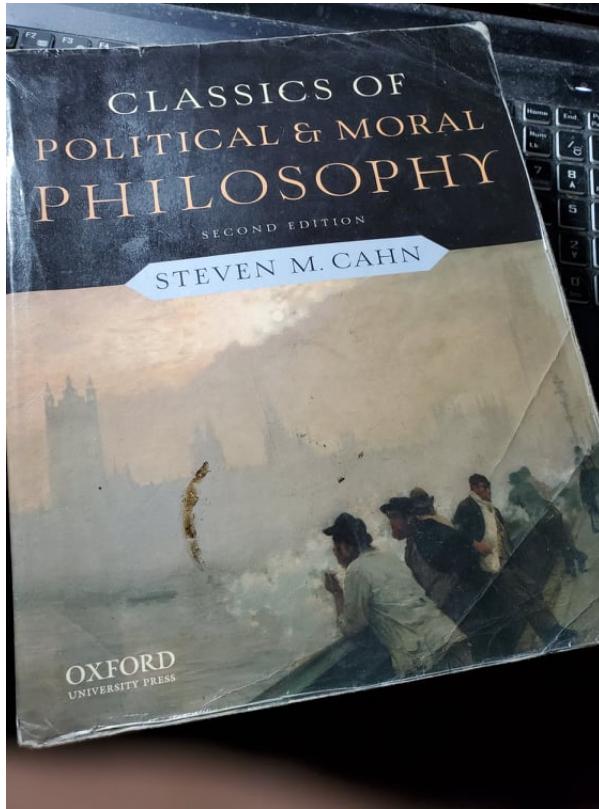

First, remember the United States Declaration Preamble. We hold these truths to be *self-evident* that all men (in the world, not just all white men and other claptrap) are *created* equal. That means me and you and females are included. That's what I believe actually, personally. I do believe that all men are *created* in

the sense of right after conception before the fetus is even a few millimeters in size, equal. We believe that they are *all* endowed with natural rights of Life Liberty and Pursuit of Happiness. The endowment is by *the Creator*. What that means is that no other people, not you, not England, not Turkey or Afghanistan, not the great godfather of Timbuktu, not the Celestial Emperor of Imperial China, but Divine Nature if you will, God in whatever way that you believe the Divine force that moves all things beyond human control, grants these rights. Then we believe that even though it is not governments that *grant these rights*, they are *instituted among men to secure them*. In other words, by being employees of the government your primary sacred duty is to secure *natural rights of people*. These include myself, for I am American by immigration and by paperwork. My Life, Liberty and Pursuit of Happiness is the goal of governments to secure. It is not your job to incarcerate me or put me in psychiatric wards by frivolous excuses, but to *secure my natural rights*. I am extremely displeased that you have embarrassed me in front of my brother and my aunt and accused me of being a *criminal murderer* with thin evidence. I am extremely displeased by this. Your job was to bring to justice an actual career racial murderer, Bill Gates, and you, instead chose to insinuate and embarrass me who has no record of any violent crime.

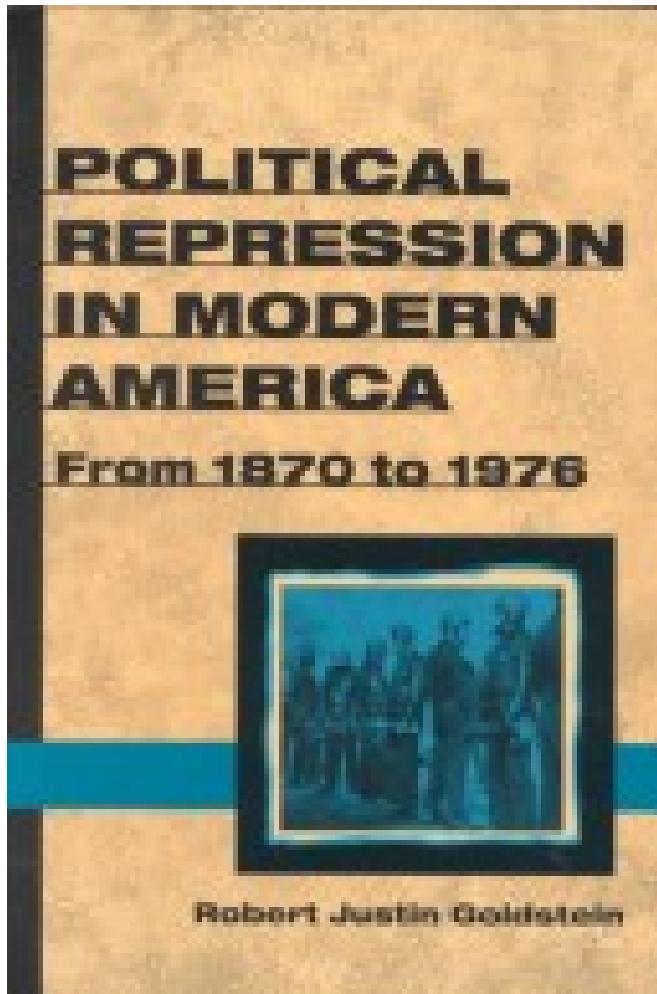

I have deep suspicions about whether you are actually doing anything legitimate at all. Do you pretend to secure natural rights of all Americans on paper and then instead serve only diabolical and tyrannical interests of *murderous and greedy and evil white rich men only*? That is a serious question on my mind.

8. LET'S SEE WHAT I HAVE HERE

I have John Rawl's *A Theory of Justice* that celebrates the John Lockean tradition and shores up Liberalism. But I am reasonably educated on moral and political philosophy. I've been working on psychology recently.

Now I have read this wonderful book and have a copy somewhere in the mess here but can't find it right now.

I really don't want to go into it. But if I am bothered I'll make some time. It's not that interesting but if you have to deal with it, you have to deal with it. I do think it would be good for FBI to read this book so that you have a better understanding of what has been the tradition in America.

You see, for you it's a minor issue, you didn't like someone's poster and it looked not so good to you, seemed 'threatening' and you cite some law and put someone behind bars. Well I am 49 trying to pursue my American Dream, so it's not that innocuous. I consider this quite severe evidence of *political repression*. Why? Because you're serving Bill Gates, and not me. You are criminalising the good man and not bothering a career racial murderer.

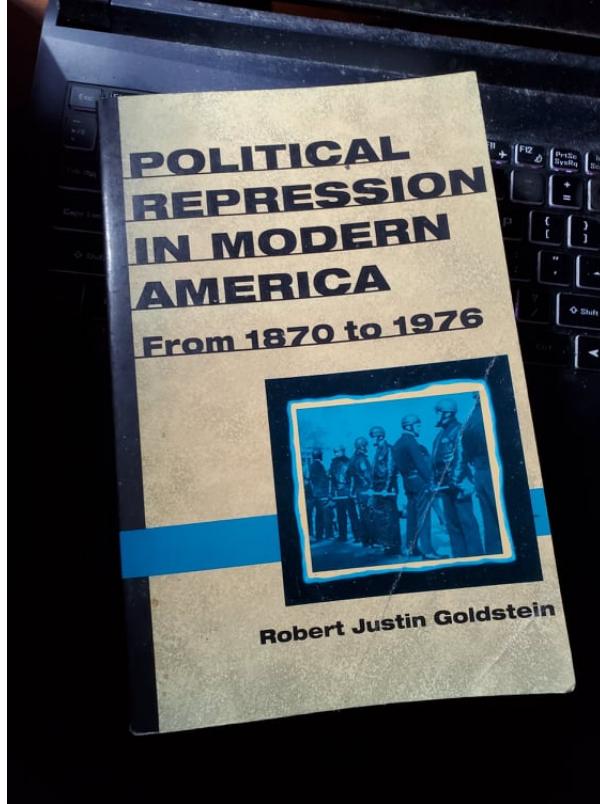

9. MY RELEVANT POLITICAL BACKGROUND

Some two decades ago in San Francisco I was a *Revolutionary Socialist* in San Francisco and Amy Landover, a Yale Law graduate was a mentor and friend to me. I read Antonio Gramsci's *The Prison Notebooks* in that time, as well as Howard Zinn's *A People's History of the United States*. We, in International Socialist Organisation, had exclusive first photographs of Abu Ghraib torture, and I sold newspapers for

\$1 on Valencia Street and Mission on weekends with the exposé. I have since rethought my political ideas and am much more universal natural rights oriented *globally*. That is my politics now. But I am very serious about politics, and do not fall neatly in the constraints of Liberals and Conservatives in America. Now you can pretend all you want that my dealings with Bill Gates is hallucinatory but it is not. He has applied power against me violating all national and international Human Rights, even harming my body meta with US War meta that is strictly against Geneva Conventions. So I am not going to actually agree with your assessment that I am hallucinating but I will comply with your demands and see a mental health professional. Then I will consider this a serious political matter I was destined to address in America, the mistreatment and repression of non-white people in America by government.

10. HERE I FOUND MY COPY FINALLY UNDER STACKS

Now I will show you my own copy of Robert Justin Goldstein's *Political Repression In America* after I dust it off.

You see, I don't want you to get the idea that I am just making things up to get rid of your attention. I am a gentleman, and I am an *honest* gentleman who takes pride in my truth.

You see, when you take a silly unrealistic poster of mine and threaten to jail me and ask me to go through mental health loops, that is *political repression*. It is political repression that is quite overt to me. Because the claim of threat is not actually *credible*. And yet you thought that you had sufficient evidence to storm

my peaceful existence for an absurdity. That is the *essence of political repression*. Let's not talk about *Gestapo* because we're looking at FBI now.

11. YOU CLAIM THAT I REPRESENT A THREAT TO BILL GATES PHYSICALLY BUT THE EVIDENCE IS THIN HERE

For me an FBI officer is not my enemy; he's doing his job. He believed that it was right for *federal law enforcement* to storm my peaceful abode and accuse me of possible criminal wrongdoing that might land me in federal incarceration. But where is the reasonableness of this decision from a poster of Bill Gates with a red bull's eye on his head and various whispers not to someone else but *Zulf* – that is me – to just pull the trigger. I will easily claim that the trigger was a political campaign to sabotage his reputation and assassinate his *Character* and not his physical body. I have never owned a firearm in my life and was shot at 11 before I arrived in America. How does any rational organisation determine a threat *grave enough from this* to storm my home and embarrass me in front of my family members as though I were an actual assassin with a record, and lower their esteem for me at 49? How is this justified *except by systematic racial bias at the institutional level by United States Government who will ignore massive destructive use of illegitimate power by Bill Gates and protecting a racial criminal's interest and instead harming my life?* That is the question that is on my mind, so I will chalk this down as *political repression in America*. Bill Gates is a well-known public figure who lives far away from Texas. It is not credible that I posed any actual threat to him.

12. I WILL GIVE YOU MY ASSESSMENT

(a) *Asking me to go through the mental health circuit now at 49 when I have been fighting to get \$620 million blockaded by Bill Gates owed to me by David E. Shaw and ECB President Christine Lagarde is totally destructive to my life and I may never recover. It is thoroughly irresponsible to my mother who is bedridden and in the twilight of her life. The pretense of care for my well-being here is not convincing. I believe FBI is following a tradition of disrupting and destroying non-white American lives in order to serve the interests of malevolent white supremacist criminals like Bill Gates. Here I don't see any enthusiasm by FBI to arrest Bill Gates but a great deal of enthusiasm to destroy my future prospects just as I am being able to impress Stanford Mathematics with successful completion of three or more Ph.D. Quals in several weeks and gaining traction for my Four-Sphere Theory which is work of extraordinary genius surpassing that of Albert Einstein and Erwin Schrödinger in fundamental physics. What motive could I construe when they take a funny poster and hold it as evidence of incredible threat to life of Bill Gates who has \$131 billion of security protecting him in a faraway state while I am on disability income in Allen Texas isolated from my comfort zones in San Francisco and New York? The motive can only be that they do not serve my interests at all.*

13. I WILL MARK BEING COERCED TO MENTAL HEALTH CIRCUIT AS GRIEVOUS DESTRUCTIVE DAMAGE TO MY AMERICAN DREAM AND LIFE

FBI should be very very clear that asking me to go through mental health circuit now, despite my disability I will consider not as concern for my health but as grievous destructive damage to my life because I had never reached Managing Director

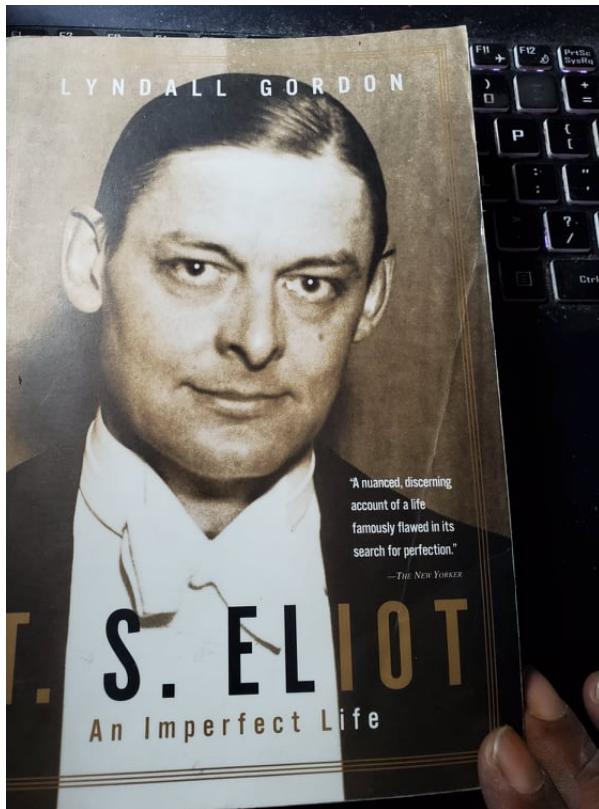

level in Finance, I faced discrimination by Wall Street for my Muslim name thanks to United States propagating lies about who did 9/11 – it was Israel's Mossad and no Muslim hijackers were involved at all (see [1]– and furthermore I did not know that Daniel Stroock had hurt my path in Finance even though he was an academic and not in Finance himself. I do not consider this intrusion in my life lightly at all, and will consider it direct and deliberate and intentional harm to my life.

14. SOME OBSERVATIONS

You know, I've had lovers from Argentina and Denmark, and I've been in London a number of times. My father was high in the government of Bangladesh, and Bengal is a three thousand year old Vedic Civilisation. In London, I can get in the circle of intellectual elite in a matter of a few days because I am extremely well-read, and have fine taste in literature – fully able to lecture on Hellenistic literature of Homer and the Tragedians, of Aeschylus, Sophocles, Euripedes, and have a fine sense of European literature all the way to Romanticism and Modernism. I like Thomas Mann, Thomas Bernhard, and have a very good sense of Shakespeare and Shelley and Keats and in American literature like William Faulkner and enjoy Walt Whitman. Thomas Stearn Eliot's works are precious to me, and I have followed The Waste Land in my life and it provided me with spiritual sustenance. Eliot rushed away from America and was appalled by how badly men of cultivation were treated already in the late nineteenth century America. In America, I am treated with little regard despite being infinitely more cultivated than the these hick illiterate charlatans like Bill Gates who are literally worthless to me. But the American white culture will worship these sorts and treat me as though I were a criminal while I am quite a bit more important to the world than he will be in 20,000 years because he's just a criminal huckster who sold some third rate things and got wealthy and is not intellectually capable of anything deep. Gullible white Americans think that he is a valuable genius; it makes me laugh out loud. Anyway, I am part of the world's intellectual elite and Bill Gates is not. You can criminalise me if you wish, but know that mistreating immortal geniuses has never been good for any Civilisation. You can get used to mistreating people like me who are not white, but you won't get away with it because in Europe and Asia, you will not be respected for it.

I am serious. Let me show you something.

"John Jay Chapman, a contemporary critic, located the blight in the pervasiveness of the commercial mind in America, which was, he said, indifferent to truth, to love, and to religion—all things, in fact, Eliot tried to recover. 'I regret,' wrote Chapman, 'the loss of the old cultivation, and yet I know that none of our old cultivation was ever quite right. The American has never lived from quite the right place in his bosom.' This is not a new idea. It had certainly perturbed Hawthorne, Twain and James. Eliot first knew it as a mood that engulfed Eastern Society after the Civil War: a loss of assertiveness. His class lost its moral leadership to men whose energies were greater, the less they wasted on thought. The Bostonians (1886) demonstrates the the demoralisation of cultivated men: 'a nervous, hysterical, chattering, canting age, the age of hollow phrases and false delicacy and exaggerated solicitudes which, if we don't look out, will usher in an age of mediocracy, of the feeblest and flattest and most pretentious that has ever been.' (p. 25, T. S. Eliot: An Imperfect Life, Lyndall Gordon.)

You see, the malaise that infects America, of denigrating cultivated men – like myself – in order to worship less cultivated men with money is not new. You don't see this in Europe or Asia very often. But in this case, obviously the brazen exercise of power against me by Bill Gates required retaliation, and I am stunned frankly that you did not eliminate the scumbag and career murderer Bill Gates in the 1980s already. Well this will not serve you well FBI because I am now concerned that you will destroy my life in America in the service of these lesser men.

15. FINE LET ME SHOW YOU MY CULTIVATION

Usually a Princetonian does not need to show his cultivation to people, but since you are going to literally criminalise me for no good reason, let's do it.

I was fond of Shelley, Byron and Keats before my arrival to New York in 1987. We came by Pacific, landed in Los Angeles, took the Greyhound to Atlanta. It was myself, my mom, and my younger brother Feroze Alamgir Ahmed. He goes by Tobias Ahmed now.

We stopped and stayed with my mom's half-brother Mehdi Sadiq and his wife Asma. Then another Greyhound to New York and cold Brooklyn. I began John Adams High School I think second semester of 1987. At this point, I was not enmeshed in high literature immediately. I was getting into Science Fiction then. I absorbed so many books then, in the cold of a Brooklyn apartment with one of those heaters nearby, I could read stacks of easy to digest pulp fiction. I was into all sorts of Fantasy and Science fiction. My brother had much better literary talent and we both read Isaac Asimov's Foundation series. Then I got into Fyodor Dostoevsky. I

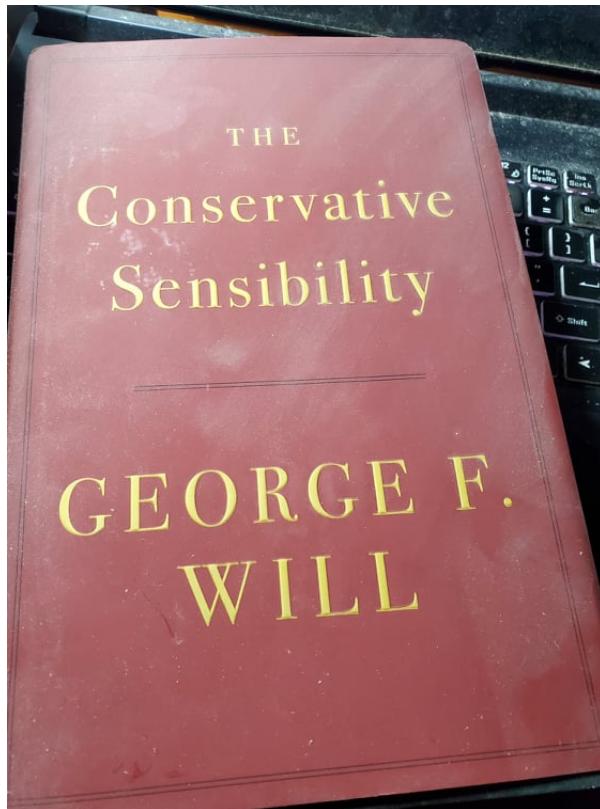

have some new translations. I was profoundly affected by Dostoevsky. I was already Atheist from 1979 and my mom was religious. I avoided all religious topics with her. So my moral education did not come from Islamic teachings at all. I refused when I was younger, of learning Arabic at all even though my mom had arranged a tutor because to me it was silly to pray in a language I did not understand to a God I did not believe in. I chalked it up to my large category of adults are crazy so what is one to do. On the other hand, Dostoevsky's moral vision was compelling, and I was mesmerised. Brothers Karamazov was intense and beautiful and grand. I was not Christian obviously but I was in a way being attuned to Christian morality just by indirect influence of Dostoevsky. Then I was taken by John Milton and especially William Blake. I was so entranced by William Blake I decided later on during my Valedictory Speech of 1991 to devote the entire speech to a reading of a Blake poem. No one was particularly moved by it since it was so far from normal. I did not care all that much.

Anyway, at Princeton I took many classes on literature later, and was interested in humanistic education, but was too overwhelmed by mathematics to really gain very deep education in literary matters. I took courses on Mikhail Bakhtin and have all his works here with me because it is quite difficult to absorb all of it. I revered Kafka for a long time, and read essays of Walter Benjamin as a great sage, and still do. He is someone whose wisdom takes time to fathom. I was a great enthusiastic reader of Nietzsche as well, although I refuted his theory of Genealogy of Morals not so long ago quite thoroughly. English literature was my focus, and only much later did I really begin to appreciate German Modernists like Robert Musil and Hermann Broch and Thomas Mann and the later descendants like Thomas Bernhard. I am still quite pleased to read The Magic Mountain and Doctor Faustus and find them very very familiar to me, much more than the popular culture in America. They soothe my soul. I belong, I feel, in the milieu of 1910-1930 Europe spiritually. The Modernists address the deepest questions that are in my soul and of course the Romantics.

Obviously I would be profoundly irritated if the law enforcement of my own country criminalises and humiliates me for frivolous reasons. What is so different about what you are doing than how Jewish Europeans were accosted in the 1930s by Nazis exactly. Do you really think that German Gestapo was not superficially polite to the Jewish people they herded to Auschwitz? You have a misguided understanding of what is threatening and what is not. I sense severe political repression and ulterior motive of a racial type attempting to seem banal and normal.

16. MY NATURAL HOME IS SAN FRANCISCO

Bill Gates exercised illegitimate power to harm my Finance, Technology position and disrupted tenure considers by Harvard (Steven Pinker and others are in the know) and is disrupting tenure possibility at Stanfard, so I consider him an enemy. His vision for America is racial order which I am obviously against strongly since I was far left and that is not even acceptable to American legitimate right who are more concerned with Constitutional matters of Conservatism. I have here this book:

I will be honest and say that I am not particularly impressed by Edmund Burke at all and don't think he was particularly bright on issues of Sublime. My tastes are closer to Percy Bysshe Shelley's A Defense of Poetry and that is good. But I like George F. Will and can appreciate his specific brand of Conservatism. You see, I was far left, so my natural sympathies are universalist, and I find that many Conservatives in America are more white tribal than they are politically sophisticated, so I am not a normal American Conservative due to the history. On the other hand I am not Communist but have strong Universalist Republican Sympathies like Thomas Paine. I am a sophisticated American man, so it will not be easy to peg me into any pigeonhole of your choice. I am Virtue-oriented strongly but do not like Evangelist right positions. I take strongly Sexual Liberal positions but recommend to my potential lovers to dress according to Catholic guidelines for pragmatic reasons.

17. THE TEXAN WHITE JUDGES ORDER WAS RACIALLY MOTIVATED

There is absolutely no evidence whatever that my posters were realistic threats to assassinate or shoot Bill Gates physically. But I suspect that American seriously white bias led the Texan White judge to order my arrest or mental hospitalisation – which infringes on my Liberty – based on baseless conjecture and misinterpretation of humour and political rhetoric. I believe the judges' orders were racially motivated because I am not white. I intend to pursue this matter immediately and prepare for the possibility that I will be held in custody and never released by United States Government white-supremacy-sympathising elements in Texas. I would like

immediate assistance from human rights organisations to protect my interests in this case.

18. REMARKS TO STANFORD LAW ON MY AGENDA

My agenda for more than a year ago involve two grand ideas. One is development of quantitative Positive Psychology for service of eight billion people, and along with it deeper study of quantitative Human Nature. The other is Global Individual Debt for all people. I have background in Finance and Technology as well as significant study over the past five or six years on positive psychology. I had in mind taking \$620 million I have legitimately earned for services making D. E. Shaw good profits – these are Medium Frequency Alpha Strategies. The other is a generous offer by Christine Lagarde to gift me \$500 million for my projects on behalf of European Central Bank. Bill Gates has uses massive white power against all laws – white law, Christian law, international human rights law – to destroy not only my career prospects, but all earnings, and my physical health and life as well. United Nations Human Rights consider found long ago that he had expressed his intention to D. E. Shaw directly that he intended to destroy and kill me with various extremely disgusting use of power. For example he invaded my Deep Interior and placed US Industrial Power to mince flesh that will eventually kill me physically by reduced body mass and rotting flesh.

I won't give details of the projects but roughly I am well-acquainted with work of Martin Seligman, Robert Emmons and other leaders of positive psychology and intend to quant their efforts in two San Francisco (Mission District) based companies. I want to use Meteor-MongoDB with high end server cluster for app deployment on massive scales without incurring Amazon Web Services charges for operation.

19. WHAT I HEARD 5:45 AM JAN 9 2022

FBI was concerned that Bill Gates had actually done enough damage to kill me by November 4 2020. Bill Gates said he didn't care because he had killed many other people before. Now I will hold FBI to harbouring a confessed murderer. This is very very serious for me. I am not at all enthusiastic about FBI mandate for my mental health incarceration at all.

20. FINANCIAL PENALTIES FOR UNITED STATES FOR MENTAL HEALTH INCARCERATION

I believe that US judges seeking mental health incarceration are extremely racially biased and are unjustly punishing me instead of the racial murderer Bill Gates whose Black Magic was meant to be lethal. I will instruct my surviving family members to seek \$1.5 trillion from United States Government if I die in your custody. I am quite familiar with the mental health circuit around here and I know well that it is incarceration with wardens wearing white coats and dispensing pills. The United States Government ought to be aware of my position. I will not resist on Wednesday, but be warned. This will have serious repercussions since now I am 1000% certain that there is no hallucination involved with me and my mental health is better than my physical health that had atrophied due primarily to Bill Gates activity in my Blood Meta and Deep Interior.

He is not just a racial butcher worse than any in Nazi Germany's history, but he is also lawless criminal and if he were serious about his racial agenda, and not

a criminal then he would have made it public and sought a campaign to sway 320 million in this Democracy. He works surreptitiously by black magic and US War Power and US Industrial Power. I am deeply displeased by the FBI and US Justice decisions against my interests now, and feeling deeply wronged. I did not violate any law at all. Your excuses are frivolous and this is most clearly political repression of the worst kind.

21. TO PUT THINGS IN CONTEXT

Only in United States would Bill Gates still be kept alive. You can ask all nations of Europe and Asia. Every single nation would have already slaughtered him. England, France, Germany would not have allowed him to harm anyone in the way that he has harmed me and still live. United States Government is extremely corrupt and so allows him to operate with impunity. So I am not at all enthusiastic about going through mental health circuit. I will intend to take up this matter in broader political arena. Bill Gates has contempt for natural rights. Why is he revered and not killed in America?

22. WHY HAS BILL GATES NOT MADE ANY PUBLIC DENIAL OF HIS EXTREME WHITE SUPREMACIST AGENDA?

This is a natural question. You can hear his side of the story. My explanation is clear as day. He uses US War, US Industrial, European Black Magic power to kill people long distance and therefore does not make public statements. He has been killing people for fifty years like this. He does not think that he is vulnerable at all because he believes it is his 'white right'. So obviously if he can kill people without acknowledging their existence publicly that is what he will do and that is my explanation.

23. I SMELL WHITE SUPREMACIST CONSPIRACY HIGH UP IN FBI HIERARCHY

Bill Gates cronies are very senior people in government. Bill Gates wants to overthrow the Republic and permanently nix natural rights protection. I know that. I do not want Stanford Law to bother the local FBI field officers at all. I think the order to take me into mental health incarceration originated not even in Texas but in FBI national level leadership by feudal vassals of Bill Gates – I mean cronies who are supporters not just of Bill Gates in the ordinary way but also of his white supremacist world order. I think they gave the order and the FBI field officers were just doing what they were told. This is very serious matter since I know very well that Bill Gates is extremely contemptuous of non-white natural rights and has been pressing very hard to enslave me for more than a year and in meta John Roberts, the Supreme Court Chief justice knows about this since he considered this personally.

24. DIFFERENT SETS OF FBI OFFICERS COME TO ACCUSE ME OF VARIOUS CRIMINAL INTENT

I was interviewed by FBI multiple times. Different people came by. But the same ones never returned. The one yesterday was different from the one before. So I do not think this is a local issue. I believe that this is a play by senior people in FBI leadership who are cronies of Bill Gates and sympathize with Bill Gates vicious white supremacist plans – which include colonising various countries, enslaving black people, removing natural rights protections and he has been calling me 'quarry'

and talking about white pride and how whites are 'Masters' and others like myself are 'slaves'. I think this is not just political repression based on a false pretense that I am the one who is a threat to Bill Gates rather than he being directly engaged in a murder plan by use of enormous amounts of power against me to harm my body and destroy all my meta needed for sustaining life. I am Bengali-Persian by ethnicity and Bill Gates had done enormous destruction of my interior, romantic meta, and had been using medieval torture, enslavement, and war powers against me for more than a year.

25. WHY I AM CANTANKEROUS WITH JEWISH PEOPLE IN US FED THINKING IT IS A JEWISH INSTITUTION

I am far from anti-Jewish. I like Jewish people, especially Jewish people who are nice and generous to me like Madam Christine Lagarde. If all Jewish people were just like Madam Lagarde, I would be quite fond of the entire religion and might even get myself all those funky yarmulkas. But the fact is that I am American who has my own faith that is not Islam and not Christianity and not Judaism. So I don't like it at all when even the 15 million Jewish people are a gigantic majority compared to me ready to stampede and kill me. So I don't like it when American institutions where the First Amendment literally forbids state sanction of religions has any religion at all be sanctioned. Now I am sure Jewish people love their religion, as it is their Natural Right to practice it here in this great multi-ethnic classical liberal democratic republic. But I don't like it when any American public institution is considered a religious institution of any religion I am not a participant in. Why? Well, I am very special. And I don't like not being special enough to any American institution. Do you blame me?

26. FINER POINTS OF HONORARY CHRISTIAN

My friend in meta, Pope Francis granted me honorary Christian so I guess I could just follow the Catholics but I am in fact not actually Christian. I have a different faith than Catholicism. I am closer to Catholic than Muslims in general by a little bit but different from both. And I am not Jewish, although I like Mathematics and am interested in intellectual issues that often Jewish people show more interest than many others. But I'll take honorary Catholic since I do revere and venerate the memory of my late mentor Lys K. Waltien who was Irish Catholic and a wonderful and lovely person who was an extraordinarily good person.

27. LET ME REMIND YOU FBI

"The holders of certain ideas in the United States have been systematically and gravely discriminated against and subjected to extraordinary treatment by governmental authorities, such as physical assaults, denials of freedom of speech and assembly, political deportations and firings, dubious and discriminatory arrests, intense police surveillance, and illegal burglaries, wiretaps, and interception of mail." (p. xxi, [2]).

What you have done by storming my peaceful abode with FBI seeking me for potential threat to Bill Gates is precisely political repression and you are following in this case a tradition that is not unknown in American history. The suspicion is dubious beyond all belief. I have never owned a fire-arm, you had records of my activities, you found some random poster among hundreds that does not mention

any guns at all *and you had decided to* totally fantastically interpret it as an intention to assassinate Bill Gates who lives 2100 miles away. I haven't even seen a shooting range in my life, and dislike guns. This is *pure political repression and moreover you asked me to get into the mental health circuit rather than consider the truth that Bill Gates has been harming me with illegitimate power and he had planned to destroy and kill me and has caused physical harm to me including pains in my body by damaging my ethnic meta, damaged and harmed my Finance meta, obstructed my legitimate earning of \$620 million, and you did nothing about any of this but you thought it was legitimate to humiliate me and pretend that I am a great threat to a man who has \$131 billion for security and lives 2100 miles away. Do you think anyone in the world will think that this is not political repression of white supremacist corruption of our Federal Government? This is political repression of the worst kind, and the dubiousness of the charges is outrageous. Do you really think you are providing any service to the American people by conducting intimidation and repressive tactics pretending that I, a Princeton graduate, who had been seeking tenure at Harvard and Stanford, pose a grave threat to someone who put in tens of billions for wars in Asia and is vile white supremacist who has been trying to use meta power for enslavement against myself? Do you think I will let this go? You can dream on.*

28. WHY DOES UNITED STATES GOVERNMENT ALWAYS SUPPORT THE WORST MURDEROUS CRIMINAL SONS OF BITCHES ON EARTH

Look, I am American, I know that 99.9% of American people of all ethnicities imaginable are good people. Why the fuck do I give a damn if Bill Gates is shot to pieces. He's like a Rottweiler or Pit Bull chomping on my penis, get rid of him immediately. He keeps repeating "I'm big. I'm big. I'm big" like a pea-brained retard while he harms me with all sorts of esoteric power. I keep my papers in order and follow the American Dream. Why the fuck can't the goddam government wipe out these criminal sons of bitches before they randomly start hurting people claiming 'white right' and all other sorts of rubbish I have never heard of in my goddam life. I am a Civilised gentlemen. Where the fuck do you find these people? What about the rest of us? Why shouldn't we just get rid of the goddam government that takes \$1.1 trillion from taxes from us and cannot even provide natural rights security because Bill Gates did what exactly. My achievements are twenty times better than his. Who the fuck is this cunt? Get rid of him immediately.

29. INTERNATIONAL REPERCUSSIONS

You might not be in the know, but Human Rights Watch consider found that United States Government colluded with Bill Gates to destructive harm to me in my personal meta which is still occupied by Bill Gates in various ways. India, which is an ally of the United States is extremely unhappy about this, and they will be involved since I am an American with Indian ethnic roots. This is a grave violation of various treaties that United States has signed, including the Presiding consideration of Eleanor Roosevelt in 1948 of UN Declaration of Universal Human Rights which is international law. I am quite displeased and will hold United States accountable for these grave breaches of my natural rights by Bill Gates and in United States conspiring with a white supremacist against the interest of an American of Indian ancestry.

30. JANUARY 10 4:36 PM

I had a difficult time sleeping and my head is feeling heavy. Haiti discovered that Bill Gates had totally destroyed my natural meta and put me into some sort of nightmare meta. Hiroshi Tanaka promised to enquire into this matter as well. United States Government, instead of preventing this total destruction of my life, which was its Constitutionally mandated duty had instead conspired with Bill Gates to join forces in my deep interior with him. I had warned Pentagon leadership of grave consequences if they did not take action against Bill Gates. And this was before Thanksgiving. I might be dragged off and incarcerated by Wednesday morning in mental health circuit but nothing changes. You were tasked to wipe out Bill Gates by US Executive Government Whites. What do you do for the nation, exactly? Bill Gates is a clear and present danger to natural rights of 40 percent of American people, all who are not white, and probably for all white people again. Why was I accosted on American soil with \$780 billion yearly budget you get from the American people's hard-earned income with massive percentage going to you? What do you do for a living, Pentagon? Do you do any work?
