THE ASIAN MANIFEST DESTINY GENOCIDE THEORY

ZULFIKAR MOINUDDIN AHMED

The United States Government has had a long history of being extremely secretive, and of lying to the American People for a very long time. I will tell you about my Asian Manifest Destiny Genocide Theory about the direct goals of American Government.

The theory is simple. We look in the nineteenth century to the end of the Native American Genocide program. In May 28 1830 Andrew Jackson backed the Indian Removal Act that led to the Trail of Tears. That was towards the end of the destruction of Native Americans from their own ancestral lands. The United States fought the Second World War against Japan and used nuclear weapons against Hiroshima and Nagasaki. Then the Genocide program against Asia began in the 1950s. We had the Korea, Vietnam and Iraq and Afghanistan wars and Bill Gates personally is heavily invested in a China war now.

In the great arc of history it is very clear that American Government has an Asian Manifest Destiny Genocide program for all Asians. It is also clear to be that American Government would deceive everyone about this obvious intention.

You see, when people plot and execute Genocide of Native Americans, when they engage in African Slavery for centuries, and they have four major wars from 1950s in Asia, we know what they are doing regardless of what they say. They can announce every day till end of time that they are Tweety Bird but actions and historical patterns tell us the truth clearly, not what they say.

1. UNITED STATES PLANNED THE MIDEAST WARS LONG BEFORE 9/11

The neoconservatives in Washington were the architects of the Middle East regime change wars long before 9/11. There was no Muslim hijacking but Israel's Mossad just used remote control and demolition of Twin Towers to trigger them. BBC found many of the alleged hijackers alive. So the hijacking is myth; it never happened at all. Remote controls took control of some passenger jet planes and then Twin Towers were demolished by explosives inside the buildings.

This the pattern of American Wars; they are typically planned before-hand and then trigger is by deception. Gulf of Tonkin incident was the same. Vietnam War was planned beforehand.

We can infer that wars involving both China and Iran have been planned already and there will be an incident that triggers it. This is part of American Manifest Destiny Asia program.
